LANDOLA'S PRODUCT FAMILY

Classical-Series

A new concept of the classical guitar for the professional guitarist. The Classical-Series is designed for the versatile guitarist of today incorporating the traditional classical design but also a tool for the jazzer or fingerstylist. Instruments in Classical-Series have a well balanced sound with an easy to play fingerboard. The guitars are manufactured in different versions to fill customers needs; a thin body, narrow fingerboard, a radiused, narrow fingerboard etc.

ACT 5000

CC 110

AC-Series

Artist Cutaway

A contemporary steelstring for the professional guitarist. A smaller sized body, featuring a delicate cutaway delivers the looks and accessibility for the modern guitar player. A well balanced punchy and bright sound is the trademark for AC-Series. These instruments deliver the looks of a fullsize guitar, yet the smaller body volume, makes it a perfect instrument for the stage.

LR-Series

Landola Ragtime

The Landola Ragtime is a new small-bodied steelstring acoustic/electro-acoustic guitar. A delicate, bright-sounding instrument for the demanding guitarist, just as well suited for the fingerstylist as for the strummer. A vintage look combined with modern luthiery provides a playing comfort and tone to please even the most demanding purist. It delivers a full-sounding sweet and clear tone with a vintage twist making it an ideal recording instrument.

LR 855

J-Series

Jumbo

A large sized steel-stringed guitar for both the professional and the serious amateur. A jumbo body delivers bright strong tone with sweet midrange and booming bass. The secret behind the incredible sound is our unique material; ThermoTimberTonewood. There are cutaway and non-cutaway models.
